

Sustainable Textile Certification

Organic Certification Standards

- **GOTS** : A standard, that covers the processing, manufacturing, packaging, labeling, trading, and distribution of all textiles made from at least 70% certified organic natural fibers. The final products may include but are not limited to fiber products, yarns, fabrics, garments, fashion textile accessories (carried or worn), textile toys, home textiles, mattresses and bedding, and textile personal care products.
- **OCS** : Provides a chain of custody verification for materials originating on a farm certified to recognized organic standards. The standard is used to verify organically grown raw materials from the farm to the final product. The goal of the OCS is to increase organic agriculture production.

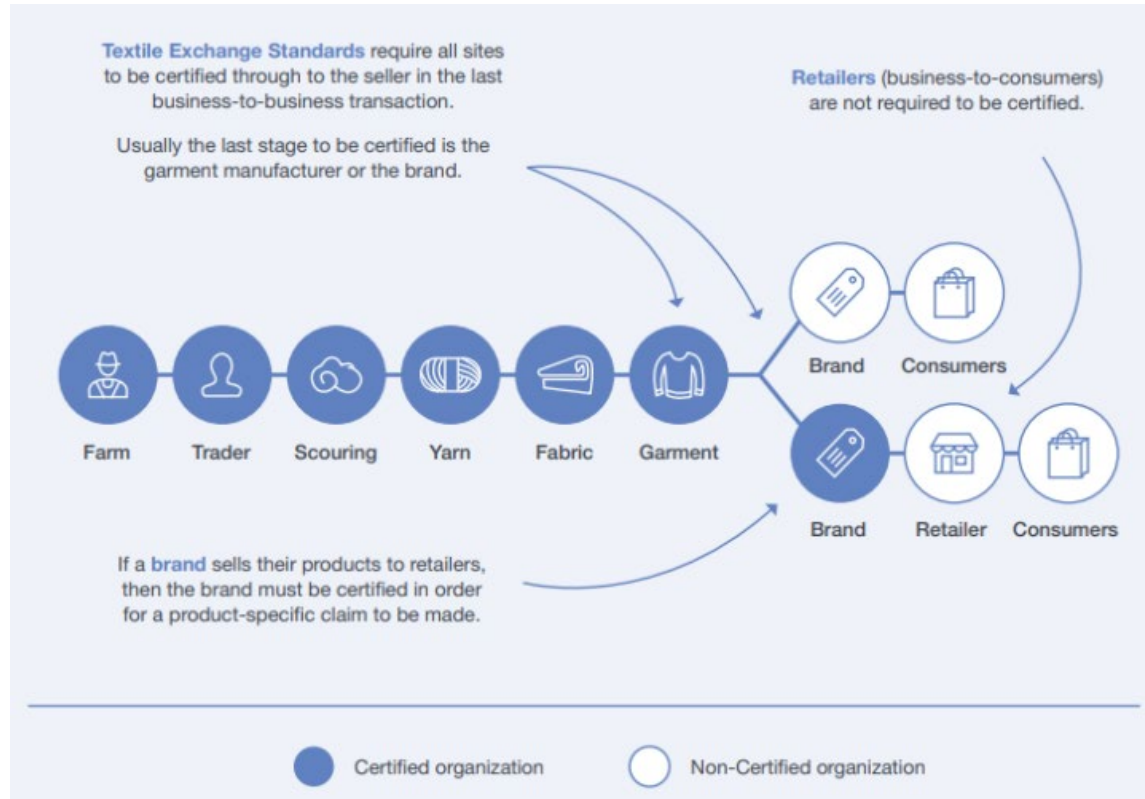

Recycled Certification Standards

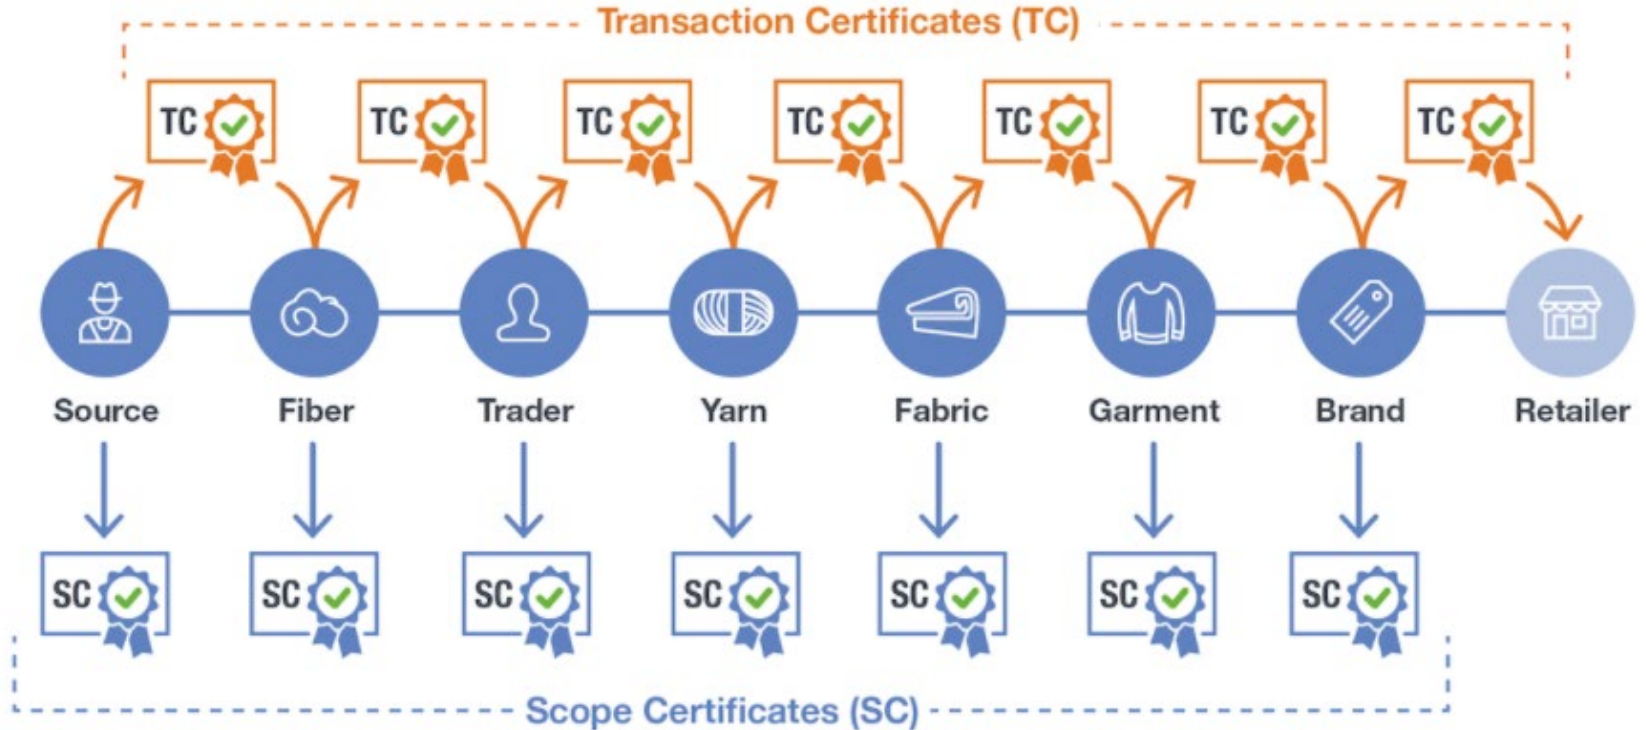

- **GRS** : Sets requirements for third-party certification of recycled content, chain of custody, social and environmental practices, and chemical restrictions. The goal of the GRS is to increase the use of recycled materials in products and reduce/eliminate the harm caused by its production.
- **RCS** : Sets requirements for third-party certification of recycled input and chain of custody. The goal of the RCS is to increase the use of recycled materials.

Each stage to be certified

TC and SC in the chain of custody

Certification Process

STEP 1

Application & Review

- 1: Collect enterprise qualification documents and query enterprise certification history.
2. Assist enterprises to fill in application forms and product lists

STEP 2

Quotations & Contracts

KCB preliminarily draws up the contract and quotation, and the enterprise accepts the contract and quotation

STEP 3

Implement

The enterprise establishes the necessary procedure documents, designate responsible person, prepares the quality manual, the annual material volume reconciliation, the staff training, etc. Fill in the system schedule, the list of raw materials, the list of processing technology, etc

STEP 4

On-site audit

Verify document procedure, interview with management and staff, on-site inspection, material balance, prepare audit report and modify non-conforming items

STEP 5

Certification decision

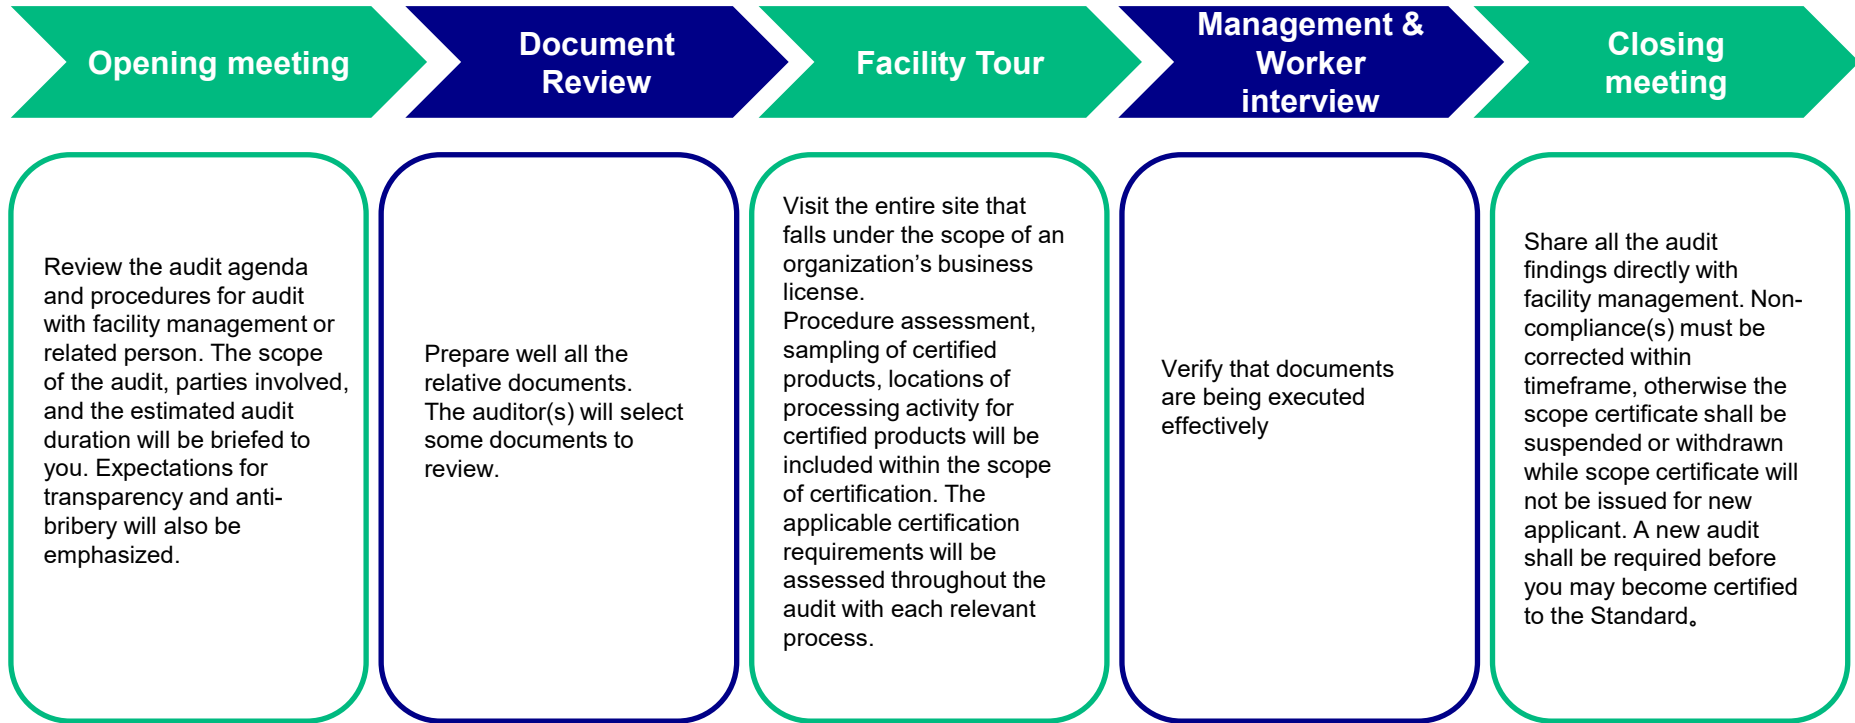

KCB makes certification decisions and issues scope certificates and transaction certificates

STEP 6

Recertification

Recertification audit for next year

Audit process
